

10th International Conference on Information Technology

IT – Facing the Challenges of Change & Convergence

Date: August 04, 2010
Venue: Karachi Expo Centre
Country: Pakistan
In conjunction with: ITCN Asia International Exhibition
Organizer: Ecommerce Gateway Pakistan (Pvt.) Ltd.

Following the successful conclusions of International Conference on Information Technology since last 9 years, we are pleased to announce the 10th edition which will grasp the theme on “**IT – Facing the Challenges of Change & Convergence**”. The **10th International Conference on Information Technology – ICIT** is an annual IT event focusing on state of the art technologies pertaining to digital information and communications.

Future Information Technology would stand for all of continuously evolving and converging information technologies, including technology trends, application & practices, digital convergence, multimedia convergence, intelligent applications, embedded systems, mobile and wireless communications, cloud computing, information security and so on, for satisfying the industry’s ever-changing needs.

Now, the challenge is to explore the possibilities how through the application of IT this change can be realized and even accelerated within the various dimensions of life leading to a better, safer, and opportunity-rich digital world.

The conference aims to comprehend this change and discuss in-depth the process to put the strategies needed into action. Key words are **enabling technology, and the organized innovation**. It will provide a high profile, leading edge forum for all the stakeholders of the industry to network, share the expertise and experience, & explore new ideas among their regional counterparts.
